DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9, 13-14 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Adams.

Adams discloses in figure 6 a hearing protection device comprising a housing 26, a transmission path having at least one chamber (the inside of 32) and at least one channel (the channel between 34), a movable element 34, the cross-section progress of the channel can be changed, a first channel 32B, a second channel 33 and a membrane 34.

Allowable Subject Matter

Claims 10-12 and 15-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ochi and Wellenhof, each disclose a hearing protection device. Although each of these references is pertinent prior art, neither was used to reject any claims, in the first office action.
